History

Alain Bouchard, Founder and Executive Chairman of Alimentation Couche-Tard Inc., started the chain with just one store in 1980. In 1986, with a network of 34 stores, a predecessor of Couche-Tard completed an initial public offering and listed its shares on the Montréal Exchange. In 1994, the predecessor corporation was privatized by its majority shareholder, Actidev Inc., a publicly held corporation. Later that year, Actidev Inc. changed its corporate name to "Alimentation Couche-Tard Inc."

After establishing a leading position in Québec, Couche-Tard expanded through internal growth and acquisitions in Ontario and Western Canada in 1997. In May 1997, Couche-Tard acquired 245 *Provi-Soir*[®] stores in Québec and 50 *Winks*[®] stores in Ontario and Western Canada from Provigo Inc. In April 1999, Couche-Tard acquired 980 stores in Ontario and Western Canada operating under the *Mac's*[®], *Mike's Mart*[®] and *Becker's*[®] banners through the acquisition of Silcorp Limited, a publicly-held corporation.

Couche-Tard began making acquisitions in the United States in 2001, when, namely in June, it acquired 172 convenience stores operated under the *Bigfoot*[®] banner located in Indiana, Illinois and Kentucky. In August 2002, Couche-Tard acquired 287 stores operated under the *Dairy Mart*[®] banner located in these states as well as in Pennsylvania and Michigan.

In December 2003, Couche-Tard made a significant step forward in the United States by acquiring 1,663 *Circle K*[®] stores from ConocoPhillips Company located in 16 states in addition to 627 stores under franchise or license agreements. Following the *Circle K* acquisition, Couche-Tard concluded a number of acquisitions throughout the next few fiscal years allowing it to reinforce its presence in current markets and entering new ones in the United States and Canada.

In May 2008, Couche-Tard extended its commercial partnership agreement with Irving Oil Limited in order to add another 252 convenience stores located in the Atlantic Provinces of Canada and the New England States in the United States to its network. Pursuant to this agreement, Couche-Tard's footprint covered all ten Canadian provinces and added to it the New England states.

In July 2012, Couche-Tard stepped into the European continent and completed the acquisition of Statoil Fuel & Retail ASA, a publicly traded company on the Oslo Stock Exchange (Norway) by purchasing all the issued and outstanding shares. Through this acquisition, Couche-Tard acquired a broad network of approximately 2,300 *Statoil*[®] branded sites which operate across Scandinavia (Norway, Sweden, Denmark), Poland, the Baltics (Estonia, Latvia, Lithuania), and Russia. The majority of these sites offer

road transportation fuel and convenience products while the others are unmanned automated sites selling road transportation fuel only. This acquisition added about 19,000 people to Couche-Tard's total workforce.

On March 16, 2015, Couche-Tard acquired 100% of the outstanding shares of The Pantry, Inc. (the "Pantry") a publicly traded company on NASDAQ and a leading convenience store operator in the southeastern United States and one of the largest independently operated convenience store chains in the United States. The Pantry network was comprised of approximately 1,500 convenience stores in 13 states under select banners, including *Kangaroo Express*®, its primary operating banner.

On February 1st, 2016, Couche Tard continued its expansion in Europe and entered into a new country, Ireland, with its acquisition of all the outstanding shares of Topaz Energy Group Limited, Resource Property Investment Fund plc and Esso Ireland Limited, collectively known as "Topaz". Topaz is the leading convenience and fuel retailer in Ireland.

On September 7, 2016, Couche-Tard received the approval from the Canadian Competition Bureau to proceed with the Imperial Oil Limited's ("IOL") transaction, to acquire certain of IOL's Canadian retail assets located in the Provinces of Ontario and Québec hence growing its footprint in Canada. The transaction includes 278 of IOL's Esso-branded fuel and convenience sites in Canada. Of these sites, 228 are located in Ontario - the majority of which are in the Greater Toronto Area - and 50 sites are located in Québec.

On June 28, 2017, Couche-Tard acquired all the issued and outstanding shares of CST Brands, Inc. ("**CST**") and, as a result, Couche-Tard added close to 1,300 stores, including more than 650 locations in Texas. Through the CST transaction, Couche-Tard also acquired the general partner of CrossAmerica Partners LP ("**CAPL**"), 100% of CAPL's Incentive Distribution Rights and a 20.5% equity investment in CAPL. The combination of CAPL with Couche-Tard's existing wholesale network of more than 700 stores makes it a leading wholesaler of road transportation fuel in the U.S.

On December 22, 2017, Couche-Tard acquired for a total cash consideration of approximately \$1.6 billion all the membership interest of Holiday Stationstores, LLC and certain affiliated companies ("**Holiday**"). Holiday is an important convenience store and fuel player in the U.S. Midwest region and its acquisition by Couche-Tard resulted in the addition of 516 new sites to the Corporation's existing portfolio, of which 373 were operated by Holiday and 143 were operated by franchisees.

Holiday also operates a strong car wash business with 234 locations at the closing date, 2 food commissaries and a fuel terminal in Newport, Minnesota. Its stores are located in Minnesota, Wisconsin, Washington State, Idaho, Montana, Wyoming, North Dakota, South Dakota, Michigan and Alaska. Couche-Tard financed this acquisition using its available cash and existing credit facilities.

Acquisition of CST Brands, Inc. and participation in CrossAmerica Partners LP

On June 28, 2017, Couche-Tard completed the acquisition of all the issued and outstanding shares of CST through an all-cash transaction valued at \$48.53 per share, with a total enterprise value of approximately \$4.4 billion including net debt assumed. CST is based in San Antonio, Texas and, before the closing of the acquisition, it employed more than 14,000 people at over 2,000 locations throughout the

Southwestern U.S., with an important presence in Texas, the Southeastern U.S., the State of New York and Eastern Canada.

In order to finance the acquisition of CST as well as the repayments of CST’s outstanding debt, Couche-Tard entered into a new credit agreement consisting of an unsecured non-revolving acquisition credit facility of an aggregate maximum amount of \$4.3 billion, which was available exclusively to finance the acquisition of CST and the repayment of any of CST’s and its subsidiaries’ outstanding debt (the “**acquisition facility**”).

On June 28, 2017, Couche-Tard sold to Parkland Fuel Corporation a significant portion of CST’s Canadian assets for approximately CA \$986.0 million (\$752.5 million). The disposed assets were mainly comprised of CST’s independent dealers and commission agents network, its heating-oil business, 159 company-operated sites, as well as its Montreal head office. As a result, we retained 157 of CST’s company-operated sites in Canada.

No gain or loss was recognized on these sales transactions. The disposed assets and associated liabilities are presented as held for sale in the fair value of assets acquired and liabilities assumed and are recorded at their respective fair value less costs of disposal.

Considering the related transactions subsequent to the CST acquisition, on a net basis Couche-Tard has added 1,263 sites to its North American network, for a net value of approximately \$3.7 billion.

In connection with the acquisition of CST, Couche-Tard also acquired the general partner of **CAPL** 100% of CAPL’s Incentive Distribution Rights (“**IDRs**”) and, as at April 29, 2018, held a 21.4% equity investment in it (20.5% as at June 28, 2017). CAPL supplies road transportation fuel under various brands to approximately 1,300 locations in the United States. The combination of CAPL with its existing wholesale network of more than 700 stores makes us a leading wholesaler of road transportation fuel in the US.

CAPL is a publicly traded Delaware limited partnership and its common units are listed for trading on the New York Stock Exchange under the symbol “CAPL.” As a result, CAPL is required to file reports with the United States Securities and Exchange Commission (“SEC”), where additional information about its results of operations can be found.

In Europe, Couche-Tard is a leader in convenience store and road transportation fuel in Scandinavian countries (Norway, Sweden and Denmark), Ireland, Poland and in the Baltic countries (Estonia, Latvia and Lithuania) as well as in Russia. Its network is comprised of 2,725 stores, the majority of which offer road transportation fuel and convenience products while the others are unmanned automated sites which only offer road transportation fuel.

Couche-Tard believes that its current banners, including *Couche-Tard*[®], *Circle K*[®], *Mac's*[®], *Kangaroo*[®], *Kangaroo Express*[®], *Re.Store*[®], *Corner Store*[®] and *Holiday*[®] have an established reputation for convenience and excellence in product selection and value that helps to differentiate its stores from those of its competitors. It believes that the geographic diversity of its network throughout Canada, the United States and Europe reduces its exposure to adverse local and/or regional market conditions, including fluctuations in road transportation fuel prices. With close to \$51 billion in revenues in fiscal 2018 and more than 30 years of convenience store operations, Couche-Tard believes its size and experience have enabled it to develop operating efficiencies that provide it with a competitive advantage, particularly with respect to merchandising and purchasing. Since Couche-Tard's launch of its global *Circle K*[®] brand in fiscal 2016 and gradual rebranding of its sites throughout its network, with the exception of the Province of Québec which will retain its *Couche-Tard*[®] banner, the Corporation believes that this consolidation will strengthen customers' perception of the global brand and will reinforce its culture of operational excellence.

Well-Located and Modernized Store Base. Couche-Tard has high-quality stores in strategic locations. It believes that focusing on developing networks of stores in the geographic areas in which it operates enables it to study those markets and refine its location strategy. Couche-Tard selectively chooses its store sites to maximize its store traffic and visibility and it effectively manages the closure of under-performing stores.

Differentiated Business Model. Couche-Tard believes that its business model has positively differentiated it from its competitors. The principal elements of this business model are as follows:

Decentralized Management Structure. Couche-Tard believes that its entrepreneurial culture is one of its most important business strengths. Couche-Tard manages most of its operations and workforce in a decentralized manner in order to expedite decision-making, to address local demand for specific products and services, and to minimize corporate overhead costs. Each store is operated as a distinct business unit and store managers are responsible for meeting their financial and operational targets. The Corporation supports its store managers with a strong, experienced management team and capital resources, which it believes provide its managers with a significant competitive advantage compared to smaller operators. In addition, it has implemented a rigorous performance measurement and "benchmarking" process to ensure that best practices are deployed across its network and to allow it to provide timely and effective feedback to its managers at all levels.

Commitment to Operational Expertise. Couche-Tard has developed substantial operational expertise that enables it to efficiently match its product assortment with its customers' preferences. It employs this expertise throughout its product delivery chain, from the selection of store locations to the development of store designs, the supply and distribution of products, merchandising and marketing, and ultimately to the sale of products to its customers. This delivery chain is supported by its experienced and well-trained store and management personnel who are focused on optimizing store performance and maximizing customers' satisfaction. In addition, each stage of its operations is supported by the use of technology that enables it to perform an in-depth analysis of inventory purchases and sales. Couche-Tard uses this information to continue to refine its purchasing operations and to work with its suppliers to tailor its merchandising and customize its shelf space to increase sales volume. As a result, it believes that it is able to secure more favourable purchasing terms from suppliers.

Focus on In-store Merchandise and Service. Couche-Tard has been able to focus on growing and developing its in-store merchandise and service sales, which generate higher margins than road transportation fuel sales. In particular, Couche-Tard has focused and intends to continue on growing its higher margin fresh food and car wash business to further improve profit margins and differentiate its stores from those of its competitors.

Experienced and Motivated Management Team with a Proven Track Record. Couche-Tard's founders and management team have worked together for many years and have developed extensive expertise in operating convenience stores. In Fiscal 2017 Couche-Tard created two new positions, that of the Chief

Marketing Officer and that of the Chief Information Officer in order to strengthen its management team. As of April 29, 2018, Couche-Tard's founders collectively owned approximately 22.40% of the Corporation's stock and controlled 65.15% of the voting rights of all issued and outstanding shares. Furthermore, its business unit vice-presidents have several years of experience within the industry. Many of its management personnel at all levels have progressed into management positions after working with the Corporation for several years at different levels, while others have joined Couche-Tard in connection with acquisitions and have brought it additional expertise. Since 1997, Couche-Tard has completed many acquisitions, and management's ability to integrate stores with its existing network has been an important factor of its success. In addition, Couche-Tard's management allowed it to transition from a local Québec corporation to a leading convenience store operator in Canada, the United States and Europe.

Store Network

In September 2015, Couche-Tard announced its plan to launch a new global *Circle K*® brand throughout its network in order to consolidate the *Circle K*®, *Statol*®, *Mac's*®, *Kangaroo Express*® and *Re.Store*® retail brands under one refreshed global banner. The new *Circle K*® brand will replace Couche-Tard's existing branding on stores and service stations across Canada, the United States and Europe. However, the Province of Québec in Canada will retain the Corporation's founding *Couche-Tard*® retail brand and the automated fuel stations network will continue to be operated under the *Ingo*® retail brand. The global *Circle K*® brand began rolling out to stores in North America in January 2016 and in Europe since May 2016. As of April 29, 2018, more than 3,350 stores in North America and close to 1,650 stores in Europe have been rebranded to the new global convenience brand Circle K.

Real Estate

Couche-Tard owns 5,563 lots and 6,785 buildings and although it leases a significant portion of its sites, it believes that none of the lease agreements is individually material to it. Most of the North American lease agreements are net leases requiring Couche-Tard to pay taxes, insurance and maintenance costs while, in Europe the situation differs from country to country. However, in general, the Corporation does not normally pay taxes on leased properties in Europe. Couche-Tard leases an important portion of its real estate using conventional operating leases and finance leases mainly for the rental of stores, land, equipment and office buildings. Generally real estate leases in North America are for primary terms of five to twenty years, usually with options to renew. In Europe, the lease terms range from short-term contracts to long-term contracts with maturities of over 100 years and most lease contracts include options to renew either on the same terms or at market prices.

Couche-Tard's stores, which are located in high-traffic areas, include freestanding buildings and stores located in strip malls. Couche-Tard's stores in Canada, in the United States and in Europe are designed to appeal to customers in their local markets, rather than conforming to a single standard format. Simple and consistent exterior design makes them easily recognizable. The majority of the stores are open seven days a week, 24 hours a day, with peak customer traffic in the early morning and late afternoon. The size of a Couche-Tard store in North America ranges between 900 and 5,881 square feet, while in Europe it ranges between 1,500 and 3,500 square feet. On both continents the size of the store will depend on the market in which it is located.

Merchandise and Service Operations

Couche-Tard offers its customers products that include traditional convenience store items such as tobacco products, fresh food and foodservice, beer/wine/liquor, frozen beverages, candy and snacks, coffee, as well as dairy products. In addition, services such as car wash, automatic teller machines, lottery ticket sales, cell phones, prepaid phone cards and financial services are featured in many of its stores.

Based on merchandise and service revenue information, Couche-Tard estimates the generated revenues for fiscal 2017 and for fiscal 2018 for this category to be as follows:

Distribution and Suppliers

Merchandise Distribution and Supply Arrangements. Couche-Tard has established global, national and regional distribution and supply networks for its in-store merchandise in Canada and the United States. Couche-Tard operates its own distribution centre in Laval, Québec through which a large part of deliveries to Québec company-operated stores are channelled. Couche-Tard uses Core-Mark International Inc. ("Core-Mark") as its exclusive supplier for many of its in-store products for its Western and Central Canada

stores and uses the services of TRA Atlantic for its company-operated stores located in the Atlantic Provinces.

In the United States, Couche-Tard uses Core-Mark as a warehouse supplier to distribute merchandise to its company-operated stores located in Rocky Mountain and Westcoast divisions and to provide management services to the Couche-Tard distribution centre located in Arizona and Texas. Couche-Tard operates its own distribution centres in Tempe, Arizona and in San Antonio, Texas through which a large part of deliveries to Arizona and Texas company-operated stores are channelled.

Couche-Tard uses McLane to distribute merchandise to the majority of its company-operated stores located in its Northern Tier, Midwest, Great Lakes, Heartland, South Atlantic, Southeast, Coastal Carolina, Florida, and Gulf Coast divisions.

Both in Canada and in the United States, the remainder of supplies are delivered directly to the stores by the manufacturers or the distributors.

In Europe, Couche-Tard currently uses independent wholesalers as its main distributor or products are distributed to stores directly by the manufacturers. The independent wholesalers for countries such as Norway, Sweden, Denmark and Poland are Engros Partners, Reitan, Axfood, Eurocash, Farutex and Mateus, and Musgrave for Ireland.

In the Baltic countries (Estonia, Latvia and Lithuania) and in Russia, Couche-Tard uses local third party logistics providers who purchase, store and deliver products to the stores. They include Megapolis in Russia, Smarten in Estonia, BLS in Latvia and Sanitex (BLS) and Mercado in Lithuania.

For all markets in Europe some manufacturers have their own direct distribution, most commonly in the ice-cream and beverage category as is the case for beer and soft drinks.

Couche-Tard also negotiates supply agreements with regional suppliers, to the extent required, to meet the needs of each market and to adapt its product mix to local consumer preferences.

Road Transportation Fuel Operations

The revenues derived from Couche-Tard's road transportation fuel operations for fiscal 2017 are \$ 26,054.4 and for fiscal 2018 are \$ 37,116.5.

In fiscal 2018, Couche-Tard's road transportation fuel sales represented about 70% of its total revenues in Canada compared to approximately 72% of revenues in the U.S. and 74% in Europe. However, the road transportation fuel gross profits represented only about 42% of Couche-Tard's overall gross profits. Road transportation fuel is sold at 8,914 company-operated stores, which represent 91% of Couche-Tard's total company-operated stores.

North America

Generally, Couche-Tard's company-operated stores sell road transportation fuel under one of its brands or under an oil company's brand by purchasing the road transportation fuel and reselling it at a profit. In addition, Couche-Tard earns a commission for supplying road transportation fuel on a consignment basis in some of its company-operated stores in Canada for which it does not own the dispensers or storage tanks.

With the exception of sales made on a commission basis for which only the commission is recorded as road transportation fuel revenues, Couche-Tard includes the full value of such sales in its road transportation fuel revenues including any imbedded taxes when they are included in the purchase price.

In addition, Couche-Tard controls the general partner of CrossAmerica and has the right to appoint all members of the general partner board. CrossAmerica is a Delaware master limited partnership, listed on the

New York Stock Exchange, primarily engaged in the wholesale distribution of motor fuel and the ownership and leasing of real estate used in the retail distribution of motor fuel.

The Corporation purchases the road transportation fuel it sells from major oil companies and independent refiners, mainly under supply agreements. Road transportation fuel cost is based on the market price or stated rack price, as quoted at each terminal, adjusted per the terms of applicable supply agreements.

Couche-Tard sells road transportation fuel either under its own brands, including *Couche-Tard*[®] and *Mac's*[®] in Canada and *Circle K*[®] in the United States, or under the name of major oil companies such as *Esso*, *Shell*, *Mobil*, *Exxon*, *BP*, *Irving* and *Phillips 66*.

Europe

Couche-Tard's retail sales of road transportation fuel are mainly generated through two different categories of sites: (i) full-service sites and (ii) automated fuel sites. Non-retail sales of transportation fuel are normally generated in bulk to customers with their own storage facilities.

Couche-Tard operates terminals located in Scandinavia, Latvia, Lithuania and Ireland. Couche-Tard's ownership and control of these terminals allows it to secure competitive supply terms, optimize distribution planning and maintain efficiency throughout the key areas of the fuel marketing value chain.

Couche-Tard relies on a distribution system consisting of tanker trucks that supply its sites and wholesale customers with road transportation fuel, stationary energy and marine fuel. Although some of these trucks are owned and operated by Couche-Tard, most are owned and operated by external hauliers. Additionally, a number of Couche-Tard's wholesale customers purchase fuel products directly from Couche-Tard's terminals and depots using their own transportation systems.

Couche-Tard's supply contract with Statoil ASA (now Equinor ASA) dated October 1, 2010 (which agreement was amended on April 17, 2012, in connection with the Statoil Fuel & Retail Acquisition) provided for the supply of all standard refined oil products and biofuels to Couche-Tard in Scandinavia until July 31, 2017. Since August 1, 2017, Couche-Tard is supplying its network in Scandinavia (Norway, Sweden and Denmark) from multiple suppliers, primarily on term contracts of 12 to 18 months in length.

In Ireland and in the Baltic countries (Estonia, Latvia and Lithuania), Couche-Tard purchases road transportation fuel from global and regional refiners mainly under supply agreements. Inventories are held in primary storage in Latvia and Ireland and in secondary and other storage facilities, fuel stations and in transit in its other countries of operation.

Couche-Tard currently sells road transportation fuel in Europe under the *Circle K*[®], *Ingo*[®], *Topaz*[®], *Shell* and *Esso* brands.

Information Technology and Digital

Retail and fuel operations across Couche-Tard's global network is powered by a complex set of retail, fuel and back office systems. While ensuring these systems continue to enable smooth and safe business operations is of the utmost importance, Couche-Tard also has tremendous focus on leveraging technology to engage and delight customers and employees in new, more personalized ways. Ultimately, increasing visits and removing friction from the customer experience as we strive to take "*Making it Easy*" for our customers to higher levels. Car wash mobile app features in Europe, the RFID Car Wash subscription available at Couche-Tard's recent Holiday acquisition, the Extra club loyalty app, and the Lift upselling program are just a few of the examples of progress. Building on a heritage of cost-conscious operations, Couche-Tard is gaining efficiency by leveraging robotic process automation and artificial intelligence for store and back office automation, as well as for unlocking the power of Couche-Tard's vast data to better understand customer behavior, predict demand and optimize pricing, assortment and product placement to increase traffic and basket value.

Seasonality of business

The retail business is seasonal in nature and weather conditions can have an impact on Couche-Tard's revenues, as historical purchase patterns indicate that its customers increase their transactions and also purchase higher margin items when weather conditions are favourable.

Employees

As at April 29, 2018, approximately 105,000 people are employed throughout Couche-Tard's retail convenience network and service centers in North America. In Europe, there are approximately 25,000 people employed throughout the retail convenience network, franchise network and service centers. Membership in a trade union is particularly common in the business support category in Scandinavia, where approximately 13% of Norwegian employees were members of a trade union. In Sweden, membership is approximately 100%, and in Denmark, nearly 90% of frontline employees are members of a trade union.

COMPETITION

The Couche-Tard store network competes with a number of national, regional, local and independent retailers, including grocery chains and supermarkets, other convenience store chains, mini-convenience stores integrated to major oil companies' gas stations, pharmacies, quick-service restaurants and dollar stores. In terms of road transportation fuel sales, its stores compete with other grocery stores and gas stations. Each store's ability to compete depends on its location, accessibility and customer service. Other retail formats such as supermarkets and pharmacies offer a product mix including core convenience items and fill-in grocery. Over the years, Couche-Tard expanded its network by selecting choice locations while developing an expertise in its market niche, namely by investing in the modernization of its stores further supported by merchandising strategies tailored to its various markets. These strategies are driven by a diversified selection of proprietary brand products, loyalty programs for clients as well as special focus on customer service in order to secure a competitive advantage. Accordingly, it keeps a close eye on competitors, changes in market trends and its market shares, enabling it to react in a timely manner and maintaining its competitive position. Couche-Tard believes that the choice location of its stores makes it more difficult for new competitors to penetrate its market.

ENVIRONMENTAL MATTERS

Couche-Tard's operations, particularly those relating to the storage, transportation and sale of fuel products, are subject to numerous environmental laws and regulations in the countries in which it operates, including laws and regulations governing the quality of fuel products, ground pollution and emissions and discharges into air and water, the implementation of targets regarding the use of certain bio-fuel or renewable energy products, the handling and disposal of hazardous wastes, the use of vapour reduction systems to capture fuel vapour, and the remediation of contaminated sites. Environmental requirements, and the enforcement and interpretation of these requirements, change frequently and have generally become more stringent over time.

Under various national, provincial, state and local laws and regulations, Couche-Tard may, as the owner or operator, be liable for the costs of removal or remediation of contamination at its current sites or its former sites, whether or not it knew of, or is responsible for, the presence of such contamination. In this respect, Couche-Tard proactively seeks means to limit the environmental impact of its activities and adopts sustainable processes. Couche-Tard regularly monitors fuel system and equipment integrity and takes reserves on its financial statements to cover potential environmental remediation and compliance costs, as it considers appropriate.

In most of the U.S. states in which Couche-Tard operates (with the exception of Alaska, Florida, Maryland, New York, Oregon, Texas, Washington, West Virginia and Wisconsin), Couche-Tard participates in a state fund to cover the cost of certain environmental remediation activities after the applicable trust fund deductible is met, which varies by state. These state funds provide insurance for motor fuel facilities operations to cover some of the costs of cleaning up certain environmental contamination caused by the use of road transportation fuel equipment. Road transportation fuel storage tank registration fees and/or a motor fuel tax in each of the states finance the trust funds. Couche-Tard pays annual registration fees and remits sales taxes to applicable states. Insurance coverage differs from state to state.

Some or all of the jurisdictions in which Couche-Tard operates in Europe might require the transportation fuel industry to provide customers with at least one type of bio-fuel at their fuel stations, which is already required in Sweden for fuel stations exceeding certain throughput levels. Couche-Tard is also subject to the European Union ("EU") directive regarding the specification of petrol, diesel and gasoil and introducing a mechanism to monitor and reduce greenhouse gas emissions, which sets out requirements for the quality of fuel products by imposing threshold values for certain substances. Couche-Tard has set requirements in line with the EU directive in its fuel supply agreements in order to comply with such directive.

REGULATORY MATTERS

Couche-Tard's operating activities require certain government permits and licences, in particular pertaining to the sale of alcoholic beverages, tobacco and lottery tickets. Couche-Tard believes that it holds all licences and permits required for the proper conduct of these activities in accordance with the law. Couche-Tard is also subject to antitrust and competition laws and regulations relating to, among other things, the size of its operations and pricing of its products and services. Moreover, Couche-Tard sells certain products subject to price regulation, such as road transportation fuel, milk and alcohol.

CAPITAL STRUCTURE

The voting shares of the Corporation are its Multiple Voting Shares and its Subordinate Voting Shares. As at July 6, 2018, 132,023,873 Multiple Voting Shares and 432,198,664 Subordinate Voting Shares of the Corporation were issued and outstanding. Each Multiple Voting Share carries ten votes and each Subordinate Voting Share carries one vote with respect to all matters coming before the Annual Shareholders' Meeting.

Conversion Rights

Each Multiple Voting Share is convertible at any time at the holder's option into one fully paid and non-assessable Subordinate Voting Share. Upon the earliest to occur of: (i) the day upon which all of the Majority Holders (defined in the Articles of the Corporation as being Messrs. Alain Bouchard, Jacques D'Amours, Richard Fortin and Réal Plourde) will have reached the age of 65, or (ii) the day when the Majority Holders hold, directly or indirectly, collectively less than 50% of the voting rights attached to all outstanding voting shares of the Corporation, each Subordinate Voting Share shall be automatically converted into one fully paid and non-assessable Multiple Voting Share.

Take-Over Bid Protection

If there is an offer to buy Class A shares owned by holders who live in Québec, and the offer (as defined in Couche-Tard's articles) constitutes a takeover bid, a securities exchange bid or an issuer bid under the

Securities Act (Québec), then each Class B share can be converted, at the holder's option, to one Class A share for the purpose of accepting the offer. This conversion right does not apply if the offer is also made to all Class B shareholders at the same time, for the same price and on the same terms, or is exempt under the Securities Act (Québec) from having to be made to all Class A shareholders.

If the offer is made by someone other than one of the four co-founders, or by one of the four co-founders to someone other than a co-founder, in reliance on the block purchase exemption in the Securities Act (Québec), the offer price cannot be higher than 115% of the average market price of the Class A shares or the average market price of the Class B shares (whichever is lower), as determined using the formula set out in our articles.

Any Class B shares converted into Class A shares that are not taken up and paid for on the expiry date of the offer will be considered not to have been converted to Class A shares.

The issuer credit ratings issued by S&P Global Ratings (formerly known as Standard & Poor's ("S&P")) or Moody's Investors Service, Inc. ("Moody's") are not a statement of fact or a recommendation to purchase, sell, or hold a financial obligation issued by Couche-Tard nor a recommendation to make any investment decisions. These credit ratings may be subject to revision or withdrawal at any time by the respective rating organization and there is no assurance that these ratings will remain in effect for any given period of time.

It is common practice for corporations to pay for credit rating services that rate the quality of their credit and financial capacity. These services include, among other things, annual monitoring fees and the update of ratings, in addition to one-time rating fees when debt is initially issued. Couche-Tard reasonably expects that such payment for services will continue to be made for rating services in the future.

In fiscal 2017 and fiscal 2018 Couche-Tard paid for credit monitoring and one-time rating fees for the issuance of the senior unsecured notes indicated in the table above. No additional payments were made to the credit rating agencies for any other services.

Standard & Poor's Ratings

An S&P issuer credit rating is a forward-looking opinion of an obligor's overall financial capacity (its creditworthiness) to pay its financial obligations. This opinion focuses on the obligor's capacity and willingness to meet its financial commitments as they come due. It does not apply to any specific financial obligation, as it does not take into account the nature of and provisions of the obligation, its standing in bankruptcy or liquidation, statutory preferences, or the legality and enforceability of the obligation.

On the other hand, an issuer credit rating is a forward-looking opinion about the creditworthiness of an obligor with respect to a specific financial obligation, a specific class of financial obligations, or a specific financial program (including ratings on medium-term note programs and commercial paper programs). It takes into consideration the creditworthiness of guarantors, insurers, or other forms of credit enhancement on the obligation and takes into account the currency in which the obligation is denominated. The opinion reflects S&P's view of the obligor's capacity and willingness to meet its financial commitments as they come due, and may assess terms, such as collateral security and subordination, which could affect ultimate payment in the event of default.

S&P's credit ratings are on a long-term debt rating scale that ranges from "AAA" to "D". Some of S&P's ratings may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the major rating categories. The lack of one of these designations indicates a rating that is essentially in the middle of the category. An S&P rating outlook of "Positive", "Stable" or "Negative" assesses the potential direction of a long-term credit rating over the intermediate term (typically up to two years).

a) Corporate Credit Rating

(i) Rating attributed

The Corporation's "BBB" rating is the ninth highest of twenty-two ratings used by S&P. An obligor rated "BBB" has adequate capacity to meet its financial commitments. However, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the obligor to meet its financial commitments.

b) Ratings of Couche-Tard's Senior Unsecured Notes

(i) Rating events during fiscal 2018

On July 26, 2017, Couche-Tard issued an offering for USD 1 billion principal amount of 2.70% senior unsecured notes due 2022, USD 1 billion principal amount of 3.55% senior unsecured notes due 2027, USD 500 million principal amount of 4.50% senior unsecured notes due 2047 and CDN 700 million principal amount of 3.056% senior unsecured notes due 2024 (the “**July Notes**”).

On December 14, 2017, Couche-Tard issued an offering of USD 600 million principal amount of 2.350% senior unsecured notes due 2019 and of USD 300 million principal amount of floating rate senior unsecured notes due 2019 (the “**December Notes**”) (the July Notes and the December Notes, collectively, the “**Notes**”).

The Notes are direct unsecured obligations of Couche-Tard and rank *pari passu* with all other outstanding unsecured and unsubordinated indebtedness of Couche-Tard and have received a “BBB” rating

(ii) Rating attributed

It should be noted that issuance level ratings assigned by S&P are equal to the corporate credit rating unless stated otherwise due to certain characteristics of the issuance such as contractual or structural subordination.

The rating of “BBB” issued to Couche-Tard’s Notes is the ninth highest of twenty-two ratings used by S&P. An obligation rated “BBB” exhibits adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the obligor to meet its financial commitment on the obligation.

Moody's Ratings

Ratings assigned on Moody's global long-term and short-term rating scales are forward-looking opinions of the relative credit risks of financial obligations issued by non-financial corporations, financial institutions, structured finance vehicles, project finance vehicles, and public sector entities. Long-term ratings are assigned to issuers or obligations with an original maturity of one year or more and reflect both on the likelihood of a default on contractually promised payments and the expected financial loss suffered in the event of default.

Moody's credit ratings are on a long-term debt rating scale that ranges from Aaa to C. Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification from Aa through Caa. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category. A Moody's rating outlook is an opinion regarding the likely rating direction over the medium term. Rating outlooks fall into four categories: Positive (POS), Negative (NEG), Stable (STA), and Developing (DEV). Outlooks may be assigned at the issuer level or at the rating level.

(ii) *Rating attributed*

The rating of “Baa2” issued to Couche-Tard’s Notes is the ninth highest of twenty-one ratings used by Moody’s. An obligation rated “Baa” is considered to be medium-grade and subject to moderate credit risk and as such may possess certain speculative characteristics.
